Detailed Office Action

Claim Rejections - 35 U.S.C. § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 17-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claims 17,20, The dependency status of claims 17,20 are ambiguous. It is not clear if claims 17,20 are independent claims or if claims 17,20 are dependent on claim 1 (or claim 17 for claim 20). If claims 17,20 are independent claims, the format for writing independent claim is improper, this cause confusion in determining fee payment. If claims 17,20 are the dependent claims, claims 17,20 are rejected under 112 4th paragraph for failing to further limit claim 1 (or claim 17 for claim 20).

Claims 18-19 are rejected as being depended on the rejected claim.

Allowable Subject Matter

Claims 1-16 are allowed.

Prior arts of record does not disclose a portable device for measuring or testing

components of optical or electrical networks, with a base module, and with at least one function module, which is attached externally to the reverse side of the base module via a mechanical interface and which contains a functional unit with measuring or testing electronics, which operates with the base electronic via a functional interface, wherein the function module is attached to the base module and may be replaced with a different function module with a different functional unit, depending upon application which structurally arranged and functionally operated as claimed in claim 1.
